

Round Table

Governing with Algorithms

Recent debates on big data surveillance and artificial intelligence in governance have opened up an opportunity to think about the role of technologies like facial recognition, predictive policing, and risk scores in the production of the knowledge states use to govern. This roundtable will feature members of the Max Planck Independent Research Group (Anthropology of AI in Policing and Justice) led by Maria Sapignoli, to discuss how the development of these technologies is shaping the future of governance, policing and justice.

Tuesday, 29. November 2022

16:15h - 17:45h

Room: F -123

Prof Dr. Maria Sapignoli, Dr. Maya Avis & Dr. Daniel Marciniak, Max-Planck Institute Halle Chair: Kiri Santer, Lucien Schönenberg
